

# City University School of Community Health & Sciences CASE STUDY

## Timescale

8 Weeks

## Architect

Shepherd Epstein Hunter

## Quantity Surveyor

Appleyards DwB

## Project Manager

Watts Group

Vivid refurbished a student's centre for the School of Community and Health Sciences on City University's West Smithfield and Whitechapel campus. A more user-friendly space was created through the provision of new offices, reception, common room, corridors and the re-fit of a kitchen. The works included adaptation of partitions, new lighting, carpeting and redecoration.
