## LOUIS VUITTON

The new high profile London City location of leading designer, Louis Vuitton was fitted out with new display cabinets, a bespoke staircase, specialist joinery and limestone flooring.

Vivid's MD travelled to the Louis Vuitton stores in Vienna and Stuttgart to view the staircases which the London store was required to match. Vivid's project manager spent two weeks in the Toulouse store whilst the French contractor completed their fit out, to gain a full understanding of the delivery and installation procedures for the furniture.
